What is Prevue for Careers?

The Science Behind Mental Toughness

The Prevue for Careers Assessment is a globally recognised psychometric tool that measures abilities, interests, personality and motivation to guide learners and adults in making informed subject, study and career choices. With decades of research and validation, Prevue for Careers helps individuals discover their strengths and align them with potential career pathways.

The Prevue Framework

- **Abilities** – Measures cognitive capacity & speed at which an individual learns, solve problems and adapts.
- **Motivation & Interests** – What drives an individual's engagement and performance.
- **Personality** – Behavioural tendencies and work preferences.
- **Career Pathways** – Linking results to careers and subject fields.

Why It Matters:

Psychometric assessments, like Prevue for Careers are directly linked to:

- **Informed Subject Choices** – Guidance for Grade 9 learners choosing school subjects.
- **Career Direction** – Clearer pathways for tertiary studies and future careers.
- **Self Awareness** – Understanding strengths, potential and growth areas.
- **Confidence** – Supporting learners to make better decisions about their future.

Benefits & Applications

Who Can Benefit from Prevue for Careers?

At GP MindMaster, we partner with businesses, schools and coaches to bring the Prevue for Careers assessment into subject choice, career guidance and personal development strategies.

For Schools & Tertiary Institutions:

- Provides structured career guidance.
- Support students in selecting subjects and study fields.
- Assists teachers and counsellors in identifying learner potential.
- Reduces the risk of drop-out rates.

For Parents & Coaches:

- Gains insight into learners' natural abilities and interests.
- Supports future planning with objective data.
- Helps students avoid costly study or career mismatches.

For Students & Adults:

- Explores careers aligned with personality, interests and abilities.
- Builds confidence in decision-making.
- Identifies strengths and development areas.

Proven Fact:

Research shows that students who receive structured career guidance are up to 60% more likely to choose subjects and study paths aligned with their strengths and interests. This reduces the risk of costly career changes and increases long-term satisfaction and success.

Choose a career you love, and you will never have to work a day in your life!
